

ABOUT IBS PHOTOGRAPHY CLUB

Capture the essence.

The idea of a photography club came up to our mind in the beginning of the school year 2009. The first outing actually took place in November. Originally, the group was formed by Marco Siccardo with the help of Gustav Moorhouse, they aimed to expand the group week after week with a photo walk every Saturday.

"I started photography club because I wanted to get together with kids who shared a similar passion as me, and create a creative environment where we could all learn from each other. I first thought of photography club at my old school, but left before I could carry out the club, that led me to start photography club at IBS as well."

Marco Siccardo

After the first outing, our group gained in size and two other students joined. Now, in December 2009, the club is composed of 7 members. We are of course pleased to welcome every single new person to the Photography Club.

So far we have been taking pictures in the beautiful city of Aix En Provence. We have met between one and two o'clock at Cours Mirabeau and gone on photo walks. The outings last generally two to three hours. In the future we intend to go to Cassis and take pictures of the stunning sea-scape.

Anyone who would want to participate is welcome to take part in our weekend activities. Skills will develop with time and member's passion will grow. It is all about 1% of inspiration and 99% of perspiration: That's art.
